TECHNICAL SKILLS

Languages : Javascript, Typescript, Kotlin
Frontend : React, Redux, Tailwind CSS, NextJS
Backend : NodeJS, Express, MongoDB, Mongoose, Prisma , NextJs
Libraries: ZOD, LangChain , Next-Auth, Clerk
Dev Tools : VS Code, Android Studio, Postman , Git, Docker

PROJECTS

Cliven   **Live** ǁ **Source Code**

- Local & Secure: 100% on-device — all data processing happens on your machine with no internet or cloud dependency, ensuring full privacy.
- Chat with PDFs: Enables natural language chat with PDF documents using Retrieval-Augmented Generation (RAG).
- Powered by: Uses ChromaDB for vector storage and the Gemma model for local LLM inference — no usage limits.

Eatopia.   **Live** ǁ **Source Code**

- Role-Based Dashboards: Separate, tailored dashboards for users, restaurants, and delivery riders, each with relevant controls and views.
- End-to-End Flow: Full order lifecycle support — from user ordering, to restaurant processing, to rider delivery — all streamlined in one system.
- Mobile Application is also available built with React Native Expo.

100xRPC   **Live** ǁ **Source Code**

- LMS Activity Presence: Displays real-time Discord Rich Presence based on user activity on the 100xDevs LMS — like current lecture, course name, and progress.
- Spotify-like Integration: Works seamlessly in the background, giving a clean, dynamic status update similar to Spotify's Discord integration.

T3arena   **Live** ǁ **Source Code**

- T3Arena is a real-time multiplayer Tic-Tac-Toe game built using WebSockets for seamless, interactive gameplay.

Passport photo compliance checker   **Live** ǁ **Source Code**

- This tool checks if your photo meets official ID/passport guidelines of a specific country by analyzing factors like face position, expression, lighting, background, and text compliance.

Discord Bot   **Live** ǁ **Source Code**

- A multi-purpose utility Discord bot with features like generating architecture diagrams from public GitHub repos and sending scraped job listings from Wellfound, among other developer-focused tools.

EDUCATION   July 2023 - 2026

Bachelor of computer applications
Lovely Professional University

- Specialization in fullstack web development.
